EDUCATION

VIT Bhopal University – B.Tech Computer Science & Engineering 2022 – 2026 CGPA: 8.60/10
Essar International School (CBSE) – XII: 85.8% X: 92.8% 2022 / 2020

SKILLS

Programming: Python (Pandas, NumPy), SQL, Java, MongoDB **Tools & Platforms:** FastAPI, Google Apps Script, SQLite
BI & Visualization: Tableau, Power BI, Excel **Certifications:** IBM Data Analyst | Accenture Data Analytics & Visualization | Google Networking | SQL (HackerRank)

WORK EXPERIENCE

NikahForever Delhi, India
Product Management Intern May 2026 – Present

- Analyzed user behavior and product metrics to identify pain points, writing PRDs and user stories that informed feature development for revenue and growth initiatives.
- Conducted competitor research and ran experiments aimed at improving engagement and conversion, collaborating across design, engineering, marketing, and analytics teams.

Cautio Bengaluru, India
Data Analyst Intern Dec 2025 – Apr 2026

- Delivered an end-to-end automated invoicing platform (100+ invoices/month) using Python and Google Apps Script — covering 20+ business edge cases, branded PDF generation, and automated communication, cutting manual effort by 50%+ and improving SLA compliance.
- Built a driver scorecard from scratch tracking safety, on-time delivery, and quality metrics, enabling data-driven feedback loops across operations.

Insight Fusion Analytics Mumbai (Remote)
Data Analyst Intern Apr 2025 – Jul 2025

- Built data pipelines and dashboards using Python, Excel, and public APIs for stock market and sports analytics across 10+ client deliverables.
- Reduced client reporting cycles from ~5 days to 2–3 days through automated analytics workflows and reusable dashboard templates.

Jindal Stainless Limited Odisha
Data Analyst Intern Oct 2024 – Dec 2024

- Analyzed 20K+ HR records using SQL, Excel, and Tableau; delivered real-time dashboards and automated reports across HR and IT departments.
- Streamlined manual reporting workflows, reducing turnaround time by 20–30% and improving organizational data visibility for strategic decisions.

ACADEMIC PROJECTS

Sentrix – Realtime Fraud Detection System Jun – Jul 2025

- Built a fraud detection pipeline (Python, LightGBM, SMOTE) achieving 99.99% ROC AUC and 96% F1-score across 30K transactions.
- Deployed via FastAPI with SQLite backend and real-time scoring dashboard, processing 150K+ records with actionable fraud triage capability.

Airbnb Dashboard Visualization May – Jun 2025

- Engineered an interactive Tableau dashboard for 50K+ NYC listings, surfacing pricing trends, demand hotspots, and neighborhood-level revenue insights.
- Built a Random Forest price prediction model ($R^2 = 0.63$) and used SQL to identify pricing inefficiencies and short-term rental opportunities.

PUBLICATION

Patent: Smart Window System for Dynamic Solar Energy Control Apr 2024
Temperature-responsive hydrogel-based smart window with CPV integration, reducing energy waste by up to 50%.

RESPONSIBILITIES & ACHIEVEMENTS

- Team GarVIT – E-BAJA:** Managed inventory & logistics for EV assembly; 20% improvement in build efficiency at national-level competition.
- Smart India Hackathon 2024:** College nominee after multi-round internal selection for SIH 2024 national competition.
